Kempner Farm will donate \$2 per item sold to the organization.

Beeswax most notably is an all-natural water repellent. Beeswax carries antiviral, anti-inflammatory, and antibacterial properties that are essential in fighting chapped skin and bacterial infections that tend to affect us most in the dry, winter months. It forms a protective wall by sealing in moisture in our skin without smothering and clogging up the pores.

By applying beeswax cosmetically, such as in skin care and lip care, moisturizers, and even eye makeup, Beeswax will hydrate, condition, soothe, and calm the skin. Beeswax will not end up clogging the pores which in turn prevents the skin from being able to breathe, Beeswax creates a hydrating, super long-lasting protective barrier to protect it against environmental pollutants as well as the harsh effects of daily sun, wind and rain elements. Beeswax has exfoliating and reparative properties combined with its vitamin content helps promote the skin's regeneration and rejuvenation by helping diminish the appearance of the signs of aging, including spots, wrinkles, and skin damage. At Kempner Farm we pride our honey to be a flavorful floral honey from Central Texas. Our hives are scattered in Texas to the West to native bunch grasses and forbs with scattered **post oaks** and some plateau live **oak**, black hickory, and blackjack **oak** to the east and down south to Caldwell Texas and off to the Texas Hill Country to the West. In this wide strip of land from Austin in the south to Waco in the north, our honey bees forage for Spring to summer nectar and pollen from wildflowers such as Indian Blanket (*Gaillardia pulchella*), Horsemint (*Monarda* sps.), and *Coreopsis*. Year to year the natural blend in our Central Texas Wildflower Honey will vary. We take extra care to harvest and deliver these small sustainable Honey batches so you will not see change in our quality. We've been Producing quality honey for 10 years! Use this honey for Central Texas allergy relief, or anywhere you need a natural touch of sweet.
